SUMMARY

AI Data Science graduate with a strong foundation in Python, React, SQL, REST APIs, and Machine Learning. Experienced in building AI-powered web applications and passionate about solving real-world problems through efficient and practical solutions.

EDUCATION

- Vidyaavardhini's College of Engineering & Technology (VCET)**, Vasai Nov. 2022 – Jun. 2026
B.E. in Artificial Intelligence and Data Science — CGPA: 9.00
- Shri T. P. Bhatia College of Science**, Mumbai Aug. 2020 – Jun. 2022
Higher Secondary Education (IT Stream) — 70%

EXPERIENCE

- Trainee (Internship)** Aug. 2025 – Feb. 2026
SAMEER, IIT Campus, Powai
 - Worked on MRI DICOM image processing for noise analysis and quality improvement using Python.
 - Developed machine learning models to detect MRI noise type and estimate noise levels from medical images.
 - Implemented and evaluated image restoration pipelines while preserving edges and diagnostic details.

SKILLS

Programming: Python, SQL (MySQL), JavaScript
Web: HTML, CSS, Javascript, React
Backend: Flask, REST APIs (Basic)
AI/ML: Machine Learning, RAG, NumPy, Pandas, Matplotlib
Cloud & Tools: Git, GitHub, VS Code, AWS (Basic)
Soft Skills: Problem Solving, Analytical Thinking, Adaptability, Teamwork

PROJECTS

- ArtGAN (Artwork Restoration)** | *Python, Stable Diffusion, React* Nov. 2025 – Mar. 2026
 - Developed an AI-based artwork restoration system using Stable Diffusion.
 - Built a React-based user interface for image upload and restoration workflow.
 - Integrated backend inference with frontend to generate restored artwork images.
- GovMate** | *Python, RAG, React* Mar. 2025
 - Developed a chatbot-based platform integrating 6 government services.
 - Collected and organized 5000+ government service records through web scraping for retrieval-based responses.
 - Implemented voice-based interaction to improve accessibility and user experience.
- SignWave** | *Python, OpenCV, Flask* Sept. 2024 – May 2025
 - Developed a CNN-based sign language recognition model achieving approximately 90% accuracy.
 - Built a Flask backend with OpenCV for real-time gesture detection.
 - Designed a responsive web interface enabling seamless user interaction.

CERTIFICATES & ACHIEVEMENTS

- IEEE Publication – Artwork Restoration using ArtGAN** Mar. 2026
 - Published a research paper on Artwork restoration using Stable Diffusion
- Winner, VNPS Project Competition – “Resumate”** Mar. 2026
 - Built an AI-based resume builder.
- Godrej Infotech Data Analytics Certification** Jul. 2024 – Oct. 2024
 - Completed 130-hour training in Excel, SQL, Power BI, and Python.

EXTRACURRICULAR ACTIVITIES

- Organizing Head, Training and Placement Cell, VCET** Jan. 2024 – Present
 - Coordinated & Managed 20+ placement drives for 150+ students.
